Game Templates Worldview Taste Single-picture map collection of materials1

Ancient city EZIL

==

■Introduction

"Game Templates Worldview Taste Single-picture map collection of materials1 Ancient city EZIL"
(hereinafter referred to as "this software") is a product created by GREEN FIELDS CO.,LTD and is
a collection of assets containing graphic data that can be used in the game production support
software "Maker" series.

■About this content

This collection of assets is a collection of map objects created to "RPG Maker Unite" standards,
perfect for expressing a story or worldview with depth.

s

■System Requirements

System supporting "RPG Maker Unite".

■How to use this software

This section explains how to use the assets in the collection.

< For the Unity Asset Store version>

1. Start the "RPG Maker Unite" editor and open the project to which you want to add assets.

2. Open the asset page in the Unity Asset Store and click the Open in Unity button.

3. The Package Manager window will open, displaying information about the asset. Download and
click the Import button.

4.The Import window will appear. Click "Import" in the lower right corner of the screen to import this
collection of assets in a batch.

5. The Import window will appear, which allows you to reference the assets as Unite assets. Follow
the instructions to import.

< For the Steam version>

1. Start the "RPG Maker Unite" editor and open the project to which you want to add assets.

2. Select "Window" > "RPG Maker" > "Mode" > "RPG Maker Unite + Unity Editor" from the main
menu.

3. In the Unity Editor, select Assets > Import Package > Custom Package.

4. Select " Single-picture map collection of materials1.unitypackage " in the folder of this asset collection and click [Open].
The "Import" window will appear. Click "Import" in the lower right corner of the screen to import this collection of assets in a batch.
